

# CEILING SPEAKER

## INSTALLATION MANUAL

**1.Summary**

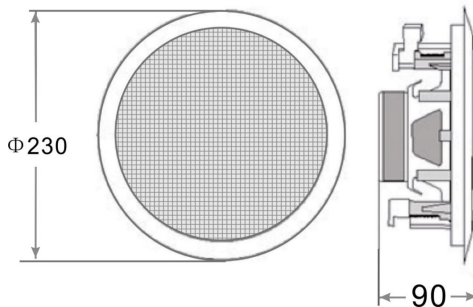

This product is a full frequency ceiling speaker. The 6-inch loudspeaker with coaxial tweeter paper basin has clear sound quality and wide frequency band. Strong moving clamp design, easy to install, compound suspension and damping treatment, longer life.

**2.Specifications & Parameters**

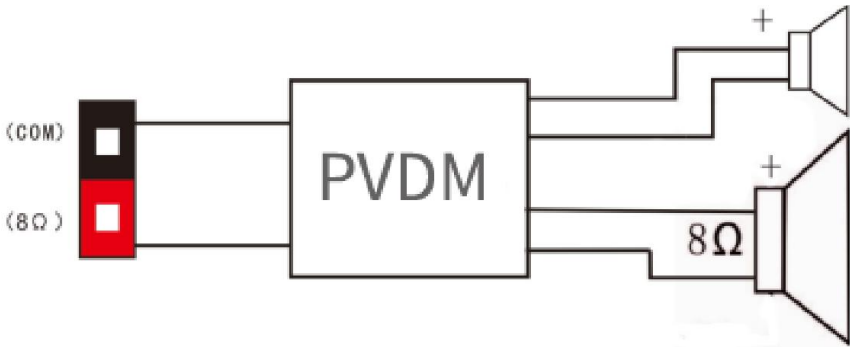

Electric Parameters	Speaker unit	6 inch coaxial treble speaker
	Max power rate	35W
	Rated Power (PHC)	25W
	Frequency (1kHz,1meter)	91dB±3 dB
	Valid Frequency range (-10dB)	80-15kHz
	Rated Impedance	8Ω
	Input port	Connecting bridge
	Color of input port	Red ,Black
Product Information	Product Size	Φ230X 90mm
	Hole size	Φ200mm
	Installation method	Ceiling installation
Raw Material	shell	White ABS
	Net cover material	Iron with white coating
Working Information	Working temperature	-25℃to+55℃
	Working humidity	-40℃to+70℃
	Relative humidity	< 95%

**3.Appearance size**

Unit: mm

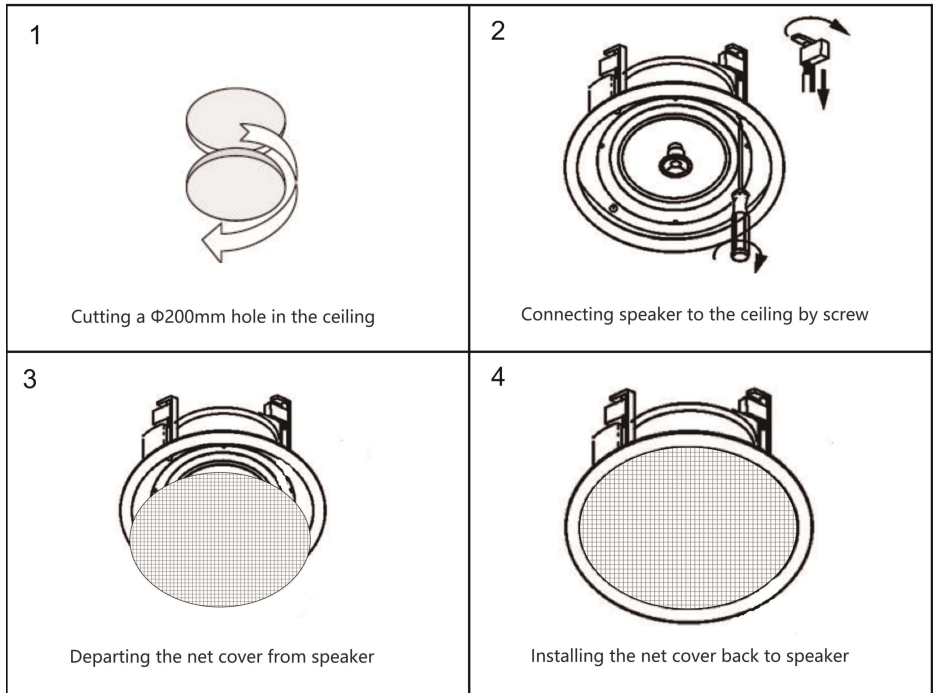

**4.Circuit Diagram**

**Wiring:**

The speaker output terminal that can be connected directly to the digital audio terminal is connected to the negative terminal of the digital audio terminal. The red terminal is connected to the speaker output terminal

**5.Installation Diagram**

## 6. Fault excluding

Fault phenomenon	Reason and Methods Of Fault Excluding
Low sound or no sound	<ol style="list-style-type: none"> <li>1. Check whether wiring are correctly, and no short circuit happens.</li> <li>2. Amplifier with different power rate should be checked whether choosing correct power rate</li> <li>3. Wire should be longer slightly to avoid any internal circuit of speaker</li> </ol>
Poor sound quality or noise occurring	<ol style="list-style-type: none"> <li>1. Check the sound resource whether it is with poor sound quality.</li> <li>2. Check whether you choose correct wire</li> </ol> <p>Check whether the speaker is fixed firmly or not. Insufficient fixing may cause vibration, resulting in poor sound quality. .</p>

## 7. Packing list

Installation manual 1 pcs

Certification 1pcs

Ceiling speaker 1 pcs
